The docent will be expected to welcome visitors, share the history and information about the house and buildings, all of which is contained in your personal handbook. The docent/guide will learn to use the audio system for tours, keep a watchful eye on the artifacts, and give them a little dusting when necessary. Husband and wife teams work well as docents, too. Call Darlene Kolp for more information at 854-6874. Hours can be adjusted to your schedule.
